

- The bagfiles recorded in this file are done at an average speed of 10kmph.
- The vehicle runs all along from the new faculty block to old faculty block.
- one\_full\_loop.bag: This run all around the faculty blocks (old and new), twice.  
eight\_shaped\_loop.bag: This runs all around the faculty blocks in an eight shaped manner,twice.
- The topics that it contains are:

```

/camera/color/image_raw      5063 msgs   : sensor_msgs/Image
/camera/depth/image_rect_raw  9250 msgs   : sensor_msgs/Image
/lidar102/velodyne_points     3059 msgs   : sensor_msgs/PointCloud2
/lidar103/velodyne_points     3059 msgs   : sensor_msgs/PointCloud2
/lidar104/velodyne_points     3058 msgs   : sensor_msgs/PointCloud2
/mavros/global_position/global 30852 msgs   : sensor_msgs/NavSatFix
/mavros/imu/data              30852 msgs   : sensor_msgs/Imu
/merged/velodyne_points       3059 msgs   : sensor_msgs/PointCloud2

```

- Traffic: The traffic while recording the data was moderate, There are few vehicles and pedestrian. For this reason the recording is done by covering two loops for each bag respectively.
